INTERN – BRASSERIE DU CAMEROUN
2021 – 2022
- Participated in internal digital and technology projects
- Applied programming and automation skills

PROJECTS AND ACHIEVEMENTS

SAAMAYA SOFTPOS
Mobile payment acceptance: turns a smartphone into a payment terminal to accept card and contactless payments without dedicated hardware.

SAAMAYA POS
Point-of-sale app for merchants: manages sales, products and payments, integrated with local payment methods.

HR PAY
Mobile and card payment aggregator: one integration to accept Mobile Money (MTN, Orange) and bank cards.

PERENKAP
Web and mobile platform where I served as project manager and lead developer, from design to deployment.

MBOANEWS
Online news platform dedicated to information about Cameroon: publishing articles and delivering content to readers.

AWARD
3rd place in the National AI in Tourism Competition (2026), with my teammate.

OTHER ACHIEVEMENTS
Numerous professional websites for startups and SMEs, payment plugins WooCommerce
- AI chatbot to automate customer responses
- AI prototypes: image generation (text-to-image) and speech synthesis (text-to-speech)
